

About 3Shape

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. Our portfolio of 3D scanners and CAD/CAM software solutions for the dental industry includes the multiple award-winning 3Shape TRIOS intraoral scanner, the game-changing 3Shape X1 4-in-1 CBCT scanner, and market-leading scanning and design software solutions for dental labs.

Two graduate students founded 3Shape in the year 2000, and today the company's fast-growing team of employees in 19 offices worldwide is serving customers in over 100 countries. 3Shape's products and innovations continue to challenge traditional methods, enabling dental professionals to treat more people more effectively.

Let's change dentistry together

3Shape TRIOS

Impress your patients

3shape 

Keep improving with 3Shape TRIOS

With 3Shape TRIOS® you can enhance patient experience, reduce chair-time and unlock many new treatment opportunities.

TRIOS is fast, easy to use, and creates documented-accurate digital color impressions.

Unlike many other solutions, TRIOS gives you continuous software updates, and optional dental treatment modules to ensure that your practice stays ahead as your business grows stronger.

5 reasons to take impressions digitally ¹

Improve patient
experience

Get digital accuracy and
limit manual errors

Enjoy easy impression
taking and reduce retakes

Save time and see
more patients

Save on impression materials
and shipping costs

Why TRIOS?

Give patients a great treatment experience

With fast and accurate impressions in realistic colors

Get more open options

Choose the scanner, software and workflows that suit your practice

Grow your practice

Expand your offering and increase profit with new treatment options

Give patients a great treatment experience

With fast, easy and accurate real-color impressions

Fast and comfortable

3Shape TRIOS® makes scanning fast and easy for dentists and assistants ensuring optimal comfort for patients² and reduced chair time.

Documented high accuracy

Ensure optimal treatment results and fit for your patients. TRIOS delivers high accuracy on single units, quads as well as full arch, as documented by several comparative university studies.³⁻⁶

“The TRIOS accuracy and resulting fit is unparalleled and I could not practice dentistry to the same caliber without it.”

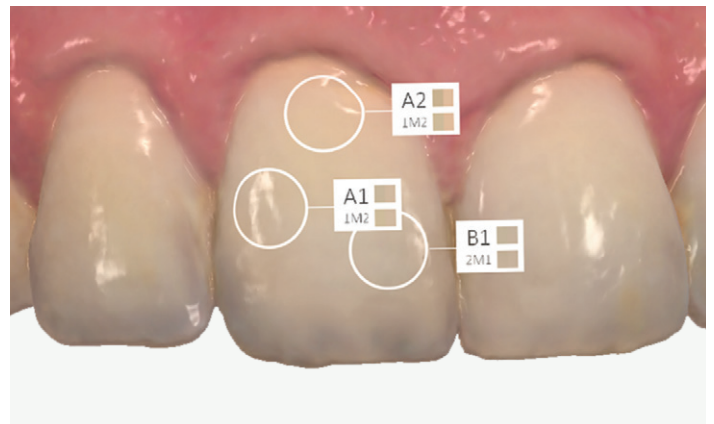

Ramsey A. Amin, D.D.S

Los Angeles, USA

Engage patients with realistic color scans

Create high quality digital impressions in lifelike colors to evaluate treatment and improve patient dialogue.

Digital tools for better treatment

Shade measurement for digital reliability, HD photos to enhance details and an intraoral camera so you don't need one on the side.⁸

“The natural colors enable us to better evaluate treatment. Doctors, staff and patients love it!”

Dr. Jonathan L. Ferencz
Prosthodontist, New York, USA
