

BETTER DENTISTRY WORLDWIDE

A-dec began with a **simple** idea:
make the best **better.**

Ken Austin
Founder & Co-owner A-dec

A-dec is **recognized** among the world's top
dental-equipment **innovators.**

Thomas J. Giacobbi, DDS, FAGD
Editorial Director, Dentaltown Magazine

Community

A-dec is a company born from family and born to lead. Ever since founders Ken and Joan Austin set out to make the best better, every A-dec patient chair, stool, delivery system, dental light, and cabinet have been part of a continuous story of quality through caring, one solution at a time.

Our headquarters is in Newberg, Oregon, but our presence around the world puts us wherever you need us to be. From a campus of 50 acres, A-dec produces more dental chairs, delivery systems, and lights than any manufacturer in the world. And doing so without a single compromise to thoughtful design, lasting integrity, and a commitment to simplify the lives of dentists.

No one takes **care** of customers like A-dec.

It's what makes A-dec ***A-dec***.

Diaa Khreish
Tamer Levant, Iraq

Reliability

What's most reliable is the least complicated. It's one of the reasons why A-dec product development teams keep an ongoing dialog with dental professionals. Only through asking and sharing and listening are we able to help simplify how dental teams perform at their very best.

A-dec creates **solutions** that work,
and work **consistently.**

Joseph D'Angelo, DDS
LaJolla, California

Innovation

Consider one of A-dec's prized innovations: *the control block.* At the heart of every A-dec delivery system is the industry's most reliable engineering breakthrough, which begins with solid corrosion-resistant alloys to withstand years of constant use. The material is precisely machined with a proven configuration that requires very few parts. It's designed with quick-connect fittings, and a flow-through water system that delivers trouble-free performance to the entire unit. Built to last? Yes. Simple? *Very.* Why? Because the people of A-dec are on a continuous mission to build the best better.

Our **role**
is to get it **right.**

Scott Parrish
President, A-dec

Accountable

Every detail matters. While many things in theory may be relative, our commitment to quality is absolute. In order to provide the most durable and reliable dental equipment in the world, A-dec makes sure that nearly everything that goes into A-dec solutions is manufactured by A-dec people. And by forming specialized work stations where a single individual performs an entire job, we're assuring that quality begins and ends with a person, not a department. The outcome is a better product. Not only do the people of A-dec see and experience an unmistakable pride of ownership, but they're also staking their effort on a product that performs exactly how it's been engineered to perform. *Every time.* It's why A-dec continues to set standards for outstanding dependability.

A-dec
listens.

Roland Bryant, MDS, Ph.D.
Professor, University of Sydney, Australia

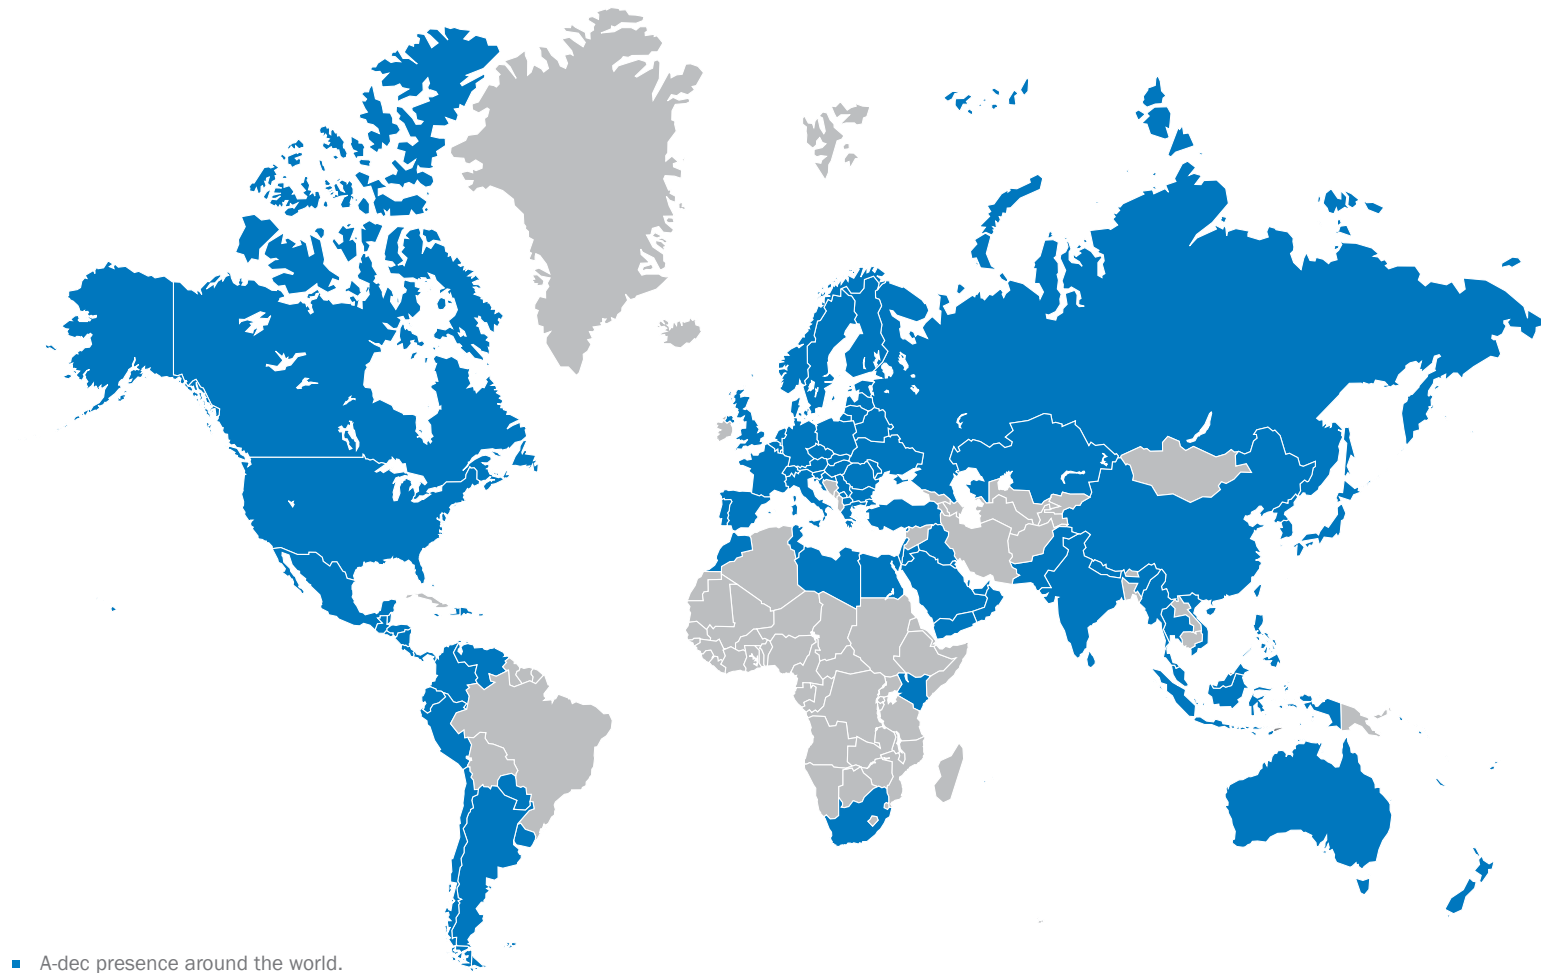

Global

Most companies offer warranties with expiration dates. Unlike most, A-dec offers a lifetime of support. For A-dec, it's a calling. *Have a question about what to look for in a chair? Want the most efficient use of space?* No matter how modest or grand the request, there's an A-dec specialist or authorized partner eager to learn more—and *do more*—before, during, and long after installation of an A-dec solution.

A-dec is wherever you need us to be. Aside from our U.S. headquarters, A-dec has locations in the United Kingdom, Australia, and China to serve a network of authorized dealers across more than 100 countries worldwide. As a result, a dentist in the middle of Cairo is assured the same quality and personal attention as a dentist outside Chicago. *Why?* It's simple. We're A-dec.

Responsive. Accessible. Informed. We're wherever you need us to be.

When it comes to **efficiency**,
safety and ease,
the whole **world** looks
to see what A-dec is doing.

Alexey Chernyshov
President, Dentex, Moscow, Russia

Higher Education & Institutions of Learning.

They researched. They carefully considered. Their choice? A-dec.
